

# XPERT TECHNOLOGIES INTERNATIONAL

Utilising telematics technology to help companies reduce costs and increase profits

Dear Sir / Madam

## Register and track a vehicle for 12 months FREE

Xpert Technologies International is a software house that specialises in helping entrepreneurs, business start-ups, joint venture partners, resellers, owners and operators of vehicle fleets to remotely manage their assets online.

By using our Fleet Management and Vehicle Tracking software solution, multi-national companies such as Coca Cola, 7UP and West African conglomerates such as Dangote Group, AG Leventis (Nig) Plc, Nigerian Breweries PLC, Flour Mills and Buildwell have been able to reduce their operating costs whilst increasing their operational efficiency and profit margins.

We have been operating in West Africa for almost a decade tracking over 5,000 vehicles simultaneously, on dedicated servers located in the UK.

We also offer complementary services such as consultancy, digital maps integration and digitisation; integration of customer's own tracking devices into our software; developing complex Fleet Management reports and customised software solutions.

Xpert Technologies International is currently offering prospective customers a free trial to register and track one vehicle on our online Fleet Management and Vehicle Tracking system for 12 months\*. To take up this offer you must express an interest by 31<sup>st</sup> January 2013.

\* Customers will be responsible for the purchase and installation of a compatible tracking device, a GSM SIM card and airtime (SMS and data bundle).

Login credentials for our online services are as follows:

Website: [tracking.xpert-tech.com](http://tracking.xpert-tech.com)
